

EXTERNAL-ISSUE-SEARCH USER INTERFACE

This user interface (UI) allows you to search for external issues that may affect testing of your new product. The search criteria may be based on a field, a keyword, or any combination of fields and keywords. In addition, the search may be performed as an "AND" search or an "OR" search. An "AND" search returns results that match all of the specified search criteria. This is helpful if you would like specific, streamlined results. An "OR" search returns results that match one or more of the specified search criteria. This is useful if you would like a more general list of external issues.

Please enter your search criteria in the text boxes below and check either the "AND Search" or the "OR Search" checkbox. After you press the "SUBMIT" button, a list of results matching your search criteria will be returned to you. You may print out these results if you wish.

<p>PROJECT NAME</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>	<p>DEVICE</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>
<p>PLATFORM (i.e. WML)</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>	<p>BROWSER VERSION, IF AVAILABLE</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>
<p>AREA (i.e. EMAIL)</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>	<p>KEYWORD</p> <input style="width: 100%; height: 30px; border: 1px solid black;" type="text"/>
<input type="checkbox"/> "AND"	<input type="checkbox"/> "OR"
<p>SUBMIT</p>	<p>CLEAR FORM</p>
